

BARESE

Chard

Good uniformity

CHARACTERISTICS

- Good thickness
- Good texture
- Nice smooth leaf

DESCRIPTION

Barese is a very uniform and fast growing variety with very upright growth. It produces medium green leaves with white stems and veins. The leaf texture is remarkably thick and smooth.

Vilmorin is a brand of the Business Unit Vilmorin-Mikado. The genetic resistances are not dispensed from prophylactic measures to be used as an addition. Our recommendations, suggestions, growing cycles and maturity information are only indicative and based on our own observations and our general experience. They are not contractual and they do not necessarily imply a successful harvest and/or result. The success of the cultivation also depends on factors non-related with the seed.
