

# DAYTONA

## Cultivated Arugula

**Fast growing**

### CHARACTERISTICS

- Good uniformity
- Divided leaf shape
- Good peppery flavor

### DESCRIPTION

Daytona is a fast growing arugula similar to that of a standard arugula but with a shape that is similar to a wild rocket.

The leaves are very lobed or incised and have a peppery flavor.

It is a uniform, high yielding baby leaf product that matures in 30-40 days depending on the season.

**Vilmorin is a brand of the Business Unit Vilmorin-Mikado.** The genetic resistances are not dispensed from prophylactic measures to be used as an addition. Our recommendations, suggestions, growing cycles and maturity information are only indicative and based on our own observations and our general experience. They are not contractual and they do not necessarily imply a successful harvest and/or result. The success of the cultivation also depends on factors non-related with the seed.
